Compañía General de Combustibles S.A.

Overview as of September 30, 2026

(Information not covered by the review report on the Condensed Interim Consolidated Financial Statements)

This Overview, which has been prepared in compliance with the provisions of the rules in force of the *Comisión Nacional de Valores* (Securities Commission) (Periodic Reporting Regime – Title IV – Chapter III – Section 4), supplements the Company's Condensed Consolidated Interim Financial Statements for the nine-month period started on January 1, 2026, and ended on September 30, 2026. All references to $ are references to thousands of pesos, unless otherwise specified. All references to USD are references to U.S. dollars, unless otherwise specified.

a) Brief discussion on the Company's activities during the third quarter ended September 30, 2026, including references to relevant events occurring after the end of the period

Adjusted EBITDA with dividends collected, corresponding to the third quarter ended September 30, 2026, amounted to USD 132,539,501 (USD 412,029,880 for the nine-month period), which represents an increase of USD 26,393,230 compared to the third quarter of 2025. The improvement in EBITDA in the third quarter is mainly due to a reduction in costs within the framework of the Operational Efficiency Plan launched in 2025, an increase in crude oil sales prices, the result of the transfer of the Cerro Overo, Bloque-127, Cañadón Minerales, Meseta Sirven and Cajón de los Caballos areas, and an increase in dividends collected.

Production of oil, natural gas, liquefied petroleum gas, and gasoline during the third quarter of 2026 was 648.84 Mm3 equivalent, a decrease of 183.10 Mm3 (-22%) compared to the quantities produced in the same period of the previous year.

Liquid hydrocarbons represented 57% and 53%, and natural gas 43% and 47% of total production as of September 30, 2026, and 2025, respectively.

The Company has an important presence in the main natural gas pipeline system, through its interests in the companies Transportadora de Gas del Norte S.A. (28.23%), Gasoducto GasAndes (Argentina) S.A. (43.5%), Gasoducto GasAndes S.A. (Chile) (43.5%), and Transportadora de Gas del Mercosur S.A. (15.8%).

The **volume of gas transported** by these companies during the third quarter of 2026 reached 6,205.20 million cubic meters, a 21% decrease compared to the same period of 2025.

Evolution of the Company's indicators	3rd Q 2026 (3 months)	3rd Q 2025 (3 months)	3rd Q 2024 (3 months)
Adjusted EBITDA with dividends collected (In dollars)	132,539,501	106,146,271	55,478,598
Oil production (m3/day) (1)	3,994.20	4,765.25	3,615.19
Gas production (Mm3/day)	3,058.45	4,277.60	4,938.23
Gas transported (MMm3)	6,205.20	7,862.73	7,164.20
Oil and gas equivalent production (Mm3)	648.84	831.94	786.91

(1) Includes liquefied petroleum gas and gasoline.

Mm3=Thousands of cubic meters
MMm3=Million cubic meters

Significant events in the third quarter ended September 30, 2026, including references to material events after the end of the period

(Expressed in dollars, except where expressly indicated)

Transfer of the Cajón de los Caballos area

On August 28, 2026, CGC entered into an agreement with Desarrollos Petroleros y Ganaderos S.A. to transfer 100% of its rights and obligations under the concession of the CNQ-3 "Cajón de los Caballos" area, effective as from August 1, 2026, for USD 175,000 plus taxes, payable in ten monthly installments. On August 28, 2026, the Ministry of Energy and Environment of the Province of Mendoza was notified of the change of operator in accordance with Article 72 of Argentine Hydrocarbons Law No. 17,319.

Oil price hedge through a derivative instrument

On September 23, 2026, the Company entered into a "three-way collar" hedging strategy on the international "Oil-Brent-ICE" price, consisting of the purchase of a put option with a strike price of USD 77.00 per barrel, the sale of a call option with a strike price of USD 80.20 per barrel, and the purchase of a second call option with a strike price of USD 90.00 per barrel. The hedge was entered into in respect of the cash flows from highly probable oil sales for the period from January through June 2027, for a volume of 546,000 barrels, for which a premium of USD 759 thousand was paid.

As of September 30, 2026, the derivative was recognized at its fair value of USD 758,940, corresponding to the premium paid; no subsequent changes in fair value were recognized during the period. Where applicable, the effective portion of such changes will be recognized in other comprehensive income and accumulated in the cash flow hedge reserve until the hedged sales affect profit or loss.

Subsequent to the end of the period, on October 8, 2026, the Company entered into an additional hedging instrument, expanding its cash flow hedging strategy through a new "three-way collar" derivative instrument on the Brent price, consisting of the purchase of a put option with a strike price of USD 81.00 per barrel, the sale of a call option with a strike price of USD 81.00 per barrel and the purchase of a second call option with a strike price of USD 89.00 per barrel. The hedge was designated on highly probable sales of oil for a volume of 555,000 barrels, with a premium of USD 72 thousand having been paid.

These financial instruments entered on September 23, 2026 and October 8, 2026 required collateral of USD 5.35 million and USD 4.44 million, respectively, which may be provided by the Company and/or any related company within the economic group.

Class 41 Negotiable Obligations

On September 7, 2026, the Company issued Class 41 Negotiable Obligations for a nominal value of USD 83,573,632, denominated and payable in U.S. dollars in Argentina, at a fixed nominal annual interest rate of 8.00%, maturing on September 7, 2029. Interest is payable semi-annually and the principal will be amortized in a single installment on the maturity date.

Of the nominal value issued, USD 79,236,114 were paid up in U.S. dollars in Argentina and USD 4,337,518 were paid up in kind through the delivery of Class 36 and Class 37 Negotiable Obligations, at an exchange ratio of USD 1 of nominal value of Class 41 Negotiable Obligations for each USD 1 of nominal value of the eligible negotiable obligations delivered. See details of the Class 36 Negotiable Obligations in Note 21.j) and Class 37 in Note 21.l) to the Financial Statements as of December 31, 2025.

b) Condensed Consolidated Equity Structure as of September 30, 2026, 2025 and 2024

(Expressed in dollars)

	09.30.2026	09.30.2025 (Unaudited)	09.30.2024

c) Consolidated condensed result structure for the nine-month period ended September 30, 2026, 2025 and 2024

(Expressed in dollars)

	09.30.2026	09.30.2025 (Unaudited)	09.30.2024
Revenues	775,075,335	705,603,135	786,079,233
Cost of revenues	(506,836,646)	(562,114,133)	(710,931,965)
Gross income	**268,238,689**	**143,489,002**	**75,147,268**
Selling expenses	(39,486,303)	(36,074,126)	(37,124,744)
Administrative expenses	(52,370,564)	(47,599,526)	(61,558,121)
Exploration expenses	-	-	(71,213,395)
Financial assets impairment	(338,255)	(422,054)	(11,586,185)
Other operating income and (expenses), net	31,281,027	4,706,140	7,231,942
Operating result	**207,324,594**	**64,099,436**	**(99,103,235)**
Result of investments in associates and joint ventures	43,996,395	48,780,892	16,906,948
Financial results, net	(120,560,468)	(214,667,727)	734,330,569
Result before taxes	**130,760,521**	**(101,787,399)**	**652,134,282**
Income tax	38,861,912	28,660,279	(324,160,353)
Net result	**169,622,433**	**(73,127,120)**	**327,973,929**
Other comprehensive results	**38,425,402**	**6,242,597**	**(71,411,870)**
Comprehensive results	**208,047,835**	**(66,884,523)**	**256,562,059**

The improvement in operating results is mainly due to the incorporation of 49% of the operations in the Aguada del Chañar area, a reduction in costs within the framework of the Operational Efficiency Plan launched in 2025, an increase in the sale prices of crude oil and the gain from transfer of mature areas.

d) Condensed consolidated cash flows structure for the nine-month period ended September 30, 2026, 2025 and 2024

(Expressed in dollars)

	09.30.2026	09.30.2025 (Unaudited)	09.30.2024

g) Prospects

The 2025 financial year was a year of consolidation and transformation for the Company, in a challenging macroeconomic context, but with signs of stabilization at the local level. During the period, CGC maintained its activity and investment levels, strategically advanced in the diversification and strengthening of its asset portfolio – highlighting the entry into Vaca Muerta as a non-operating partner in the Aguada del Chañar area – and deepened its focus on operational efficiency. Within this framework, the Company implemented a comprehensive operational efficiency plan aimed at optimizing the cost structure and improving the allocation of resources, which included the internalization of strategic services through a subsidiary company, the acquisition of operational equipment and the review of internal processes and functions, with impacts on staffing and contracts with external suppliers. These actions made it possible to move towards a more agile and sustainable operating structure, laying the foundations for an improvement in the Company's profitability and competitiveness in the medium and long term.

During the 2025 financial year, CGC made progress in the optimization and reconfiguration of its portfolio of oil and gas areas, concentrating on strategic assets and improving the Company's operating profile. Within this framework, transfers of mature and non-strategic assets were carried out, including the Cóndor and La Maggie areas in the Austral Basin, and the Cacheuta and Piedras Coloradas – Intermediate Structure areas, as well as the transfer of the rights to the Río Tunuyán and La Ventana concessions in the province of Mendoza. At the same time, it made progress in the continuity of its exploration permits, including the extension of the first exploration period of the AUS_105 and AUS_106 areas.

Continuing with those actions, in 2026 the transfer of the mature areas of Cerro Overo, Block-127, Cañadón Minerales and Meseta Sirven in the San Jorge Gulf Basin and Cajón de los Caballos in the Neuquina Basin, was completed. During 2026, the Company will remain focused on its operational efficiency plan and on maximizing the profitability of its operations, paying special attention to the evolution of the variables related to the stability of the foreign exchange market, inflation and access to sources of financing, since abrupt changes in them may affect the execution of the investment plan projected for 2026.

In line with these actions, financing efforts will continue to focus on optimizing the capital structure, as well as on the search for additional sources of financing, based on the Company's investment objectives and growth.

Note 1. General information

1.1. The Company and control group

Compañía General de Combustibles S.A. (hereinafter, "CGC" or "the Company") is a corporation ("sociedad anónima") organized under the laws of the Republic of Argentina, registered with the Public Registry of Commerce on October 15, 1920. The expiration date set forth in the Articles of Incorporation is September 1, 2100 and its registered office is located at Bonpland 1745, City of Buenos Aires, Argentina.

CGC and its associates ("the Group") business activities are focused on the energy sector, in particular oil and gas exploration and production (upstream) and gas transportation. Upstream activities are performed individually and also through joint ventures, and gas transportation activities are performed through associated companies. The Company's activities are not subject to significant seasonal changes.

The Company is controlled by Latin Exploration S.L.U. ("LE"), a Spanish company.

The Oil and Gas exploration and exploitation areas where the Company has an interest as of September 30, 2026 and December 31, 2025 are as follows:

Country/ Basin	Area	% Participation	Operator	Term	Activity
Argentina					
Noroeste	Aguaragüe	5.00	Tecpetrol	2037

Venezuela	Campo Onado	26.00	Petronado	2026	Exploration

There have been no other significant changes in the status of concession contracts in the oil and gas areas after December 31, 2025, except for the following:

a) Business Combinations - Acquisition of Assets of YPF S.A. ("YPF") effective April 1, 2025

- Name and description of the acquired business, date of acquisition, percentage acquired, and reasons for the acquisition:

On March 21, 2025, the Company signed a Farm-In Agreement with YPF through which it acquired 49% of YPF's interests, rights, and obligations arising from the unconventional hydrocarbon exploitation concession over the "Aguada del Chañar" ("ADC") area, located in the Neuquén Basin, Neuquén Province, the effective transfer of which took place on April 1, 2025. YPF retains ownership of the remaining 51% of the "Aguada del Chañar" area and will continue to operate it for which purpose the parties entered into certain complementary agreements, including the creation of a temporary joint venture.

The Company paid YPF USD 75 million and agreed to cover, on behalf of YPF and as a Farm-In commitment, 80.40% of the capital costs attributable to YPF's percentage of participation in the "Aguada del Chañar" area, subject to maximum and minimum amounts, up to a maximum amount of USD 371.9 million.

On March 20, 2026, the parties signed a "Transactional Agreement and Addendum No. 1 to the Farm-in Agreement" through which it was agreed that the Company must pay YPF, as consideration for the acquisition of 49% of ADC, as of 2026, (i) 80.40% of the capital costs effectively incurred, without the payment of minimum amounts being required; and (ii) a monthly payment subject to the existence of positive net cash flows corresponding to the percentage of participation (49%) of the Company up to a maximum amount of USD 255 million, calculated at its net present value as of April 1, 2025. Finally, the agreement maintained the right (but not the obligation) of the Company to make early cancellations of that sum at any time.

Among the complementary agreements, on March 21, 2025, the Company granted YPF a right of first refusal for the purchase of crude oil from the San Jorge Gulf Basin or the ADC area, executable in an alternative form that is not divisible or cumulative, and an option to purchase "Cañadón Seco" crude oil from other areas that CGC acquires in the San Jorge Gulf Basin in each case, for a period of five years. In return, on March 21, 2025, YPF paid CGC the single, total and final sum of USD 50 million, a profit that began to accrue in accounting on a linear basis as of January 2026.

The transaction described qualifies as a business combination under IFRS 3 "Business Combinations".

- Fair value of the consideration transferred and fair value of the main assets subject to the acquisition

The fair values of the principal assets and liabilities as of the acquisition date are detailed below, which have been incorporated into CGC's financial statements upon acquisition of its 49% interest on April 1, 2025:

	In thousands of U.S. dollar
Paid in Cash	75,000
Discounted Farm-In commitment (1)	255,000
Fair value of the consideration transferred	**330,000**
Fair value of the main assets and liabilities subject to the acquisition	
Wells and production facilities	156,868
Mining Property	173,132
Total	**330,000**

(1) The discounted value has been estimated based on the future cash flow, considering a fair value of level 3.

In determining the final fair value of the consideration transferred and the fair value of the main assets subject to the acquisition as of March 31, 2026, an adjustment was made decreasing the value of Property, plant and equipment and the value of other liabilities by USD 11,894,840 with no impact on results.

b) Extension of the concession and transfer of the Cajón de los Caballos area

On May 6, 2026, by Decree No. 864, the Ministry of Energy and Environment of the Province of Mendoza approved a ten-year extension of the CNQ-3 "Cajón de los Caballos" area concession, with retroactive effect to September 7, 2025 and valid until September 7, 2035. The extension includes an investment plan of USD 3,081,000, a guarantee of faithful performance equivalent to 10% of the plan, an extension bonus of USD 30,000, an institutional strengthening contribution of USD 20,000 and a 7% royalty rate on liquid hydrocarbons and natural gas production, without discounts for crude oil treatment expenses.

On August 28, 2026, CGC entered into an agreement with Desarrollos Petroleros y Ganaderos S.A. to transfer 100% of its rights and obligations under the concession of the CNQ-3 "Cajón de los Caballos" area, effective as from August 1, 2026, for USD 175,000 plus taxes, payable in ten monthly installments. On August 28, 2026, the Ministry of Energy and Environment of the Province of Mendoza was notified of the change of operator in accordance with Article 72 of Argentine Hydrocarbons Law No. 17,319.

c) Transfer of the Cerro Overo, Bloque-127, Cañadón Minerales and Meseta Sirven areas

On December 22, 2025, CGC entered into an agreement with Brest S.A. to transfer 100% of the rights and obligations from the concessions in the Cerro Overo, Bloque-127, Cañadón Minerales and Meseta Sirven areas, with an effective date as from April 1, 2026.

On February 27, 2026, the Ministry of Energy and Mining of Santa Cruz authorized, *ad referendum* of the provincial Executive Branch, the transfer through Resolution No. 018/2026, and established that the consideration must be formalized by means of a public deed within 60 days from publication of the decree. On March 26, 2026, the Executive Branch of the Province of Santa Cruz, through Decree No. 299/26, ratified in all its terms Resolution No. 018/2026 issued by the Ministry of Energy and Mining. On March 31, 2026, CGC and Brest signed the definitive public deed of the areas, which reflects each and every one of the conditions arising from Article 2 of the Decree.

1.2 Economic context in which the Group operates

As of September 30, 2026, the Group carries out its activities in an economic context that continues to be characterized by significant inflation levels, although with a slowing trend during the period, and by the persistence of volatile conditions in the main macroeconomic and financial variables.

During the first nine months of 2026, the Consumer Price Index recorded a cumulative variation of 23.6%, while the year-on-year variation as of September 2026 amounted to 33.4%. In September 2026, the monthly variation was 1.9%.

In this context, the available estimates indicate a moderate positive evolution in the level of activity for 2026, with heterogeneous behavior between sectors. Particularly, activities related to energy, mining and natural resources continue to show relatively favorable performance. Market expectations surveyed at the end of September 2026 also contemplated a continuation of the disinflation process and a gradual evolution of the exchange rate during the rest of the year.

Furthermore, the Market Expectations Survey for September 2026 estimated, on average, real GDP growth of 1.5% for 2026, and a seasonally adjusted contraction of 1.0% for the third quarter of 2026, followed by expected growth of 1.8% for the fourth quarter. Such survey was conducted between September 28 and 30, 2026.

At the international level, the Oil and Gas industry continued to operate in a context of hydrocarbon price volatility and supply constraints, mainly because of geopolitical tensions and disruptions in oil production and exports in the Middle East. In this context, during the third quarter of 2026 there were reductions in global oil inventories and upward pressure on international crude oil prices. Likewise, international natural gas markets continued to be exposed to developments in the supply and trade of liquefied natural gas. These conditions continue to generate uncertainty regarding the evolution of international energy prices.

The Group's management continuously monitors the evolution of the situations in order to take measures in line with the evolution of the context, with the aim of ensuring the safety of its personnel, maintaining the levels and standards of its operations and preserving its financial position.

These Condensed Interim Consolidated Financial Statements of the Group should be read considering these circumstances.

Note 2. Basis for preparation and accounting policies

2.1. Basis for preparation

The Comisión Nacional de Valores (Securities Commission or CNV) by means of General Resolution No. 622/13, set forth the application of Technical Resolution No. 26 as amended, of the Federación Argentina de Consejos Profesionales de Ciencias Económicas (Argentine Federation of Professional Councils in Economic Sciences) adopting the IFRS Accounting Standards issued by the IASB for publicly listed entities covered by the regime of Law No. 26,831, as amended, whether on account of their capital stock or their notes, or that have requested authorization to be included in such regime.

These Condensed Interim Consolidated Financial Statements for the nine-month period ended September 30, 2026 have been prepared according to the accounting framework set forth by the CNV. Such accounting framework is based on the application of the IFRS, and in particular International Accounting Standard 34 "Interim Financial Reporting" (IAS 34). Therefore, they do not include all the information required for the presentation of Annual Financial Statements.

These Condensed Interim Consolidated Financial Statements have been prepared according to the historical cost convention, modified by the measurement of financial assets at fair value through profit or loss, and must be read together with the Company's Financial Statements as of December 31, 2025, which have been prepared according to the IFRS Accounting Standards ("IFRS").

The Condensed Interim Consolidated Financial Statements for the three and nine-month periods ended September 30, 2026 and 2025 have not been audited. The Company's management estimates that they include all necessary adjustments to fairly present the comprehensive results for each period. The comprehensive results for the three-month and nine-month periods ended September 30, 2026 and 2025 do not necessarily reflect the proportion of the Company's results for the full year.

a) Functional currency modification

The determination of the functional currency requires Management to exercise significant judgment. CGC has carried out a review of its functional currency and concluded that the currency that most faithfully represents the economic effects of the entity is the U.S. dollar and, therefore, its functional currency has changed from the local currency, Argentine pesos, to the U.S. dollar.

This change is applied prospectively as from January 1, 2026, and does not affect the balances as of December 31, 2025, nor the results or cash flows for the year then ended.

The decision was based on the fact that the Company's production and sales mix has changed, with crude oil becoming the main product sold. Crude oil is traded entirely in U.S. dollars and its price is not set in any other currency. In this context, 100% of the Company's financial debt is also denominated in U.S. dollars. Historically, the factors considered in determining the functional currency were mixed; however, at present, most revenues and production costs are linked to the U.S. dollar.

CGC's change in functional currency will significantly reduce the volatility of the effects generated by exchange rate fluctuations and the application of IAS 21 – The Effects of Changes in Foreign Exchange Rates.

b) Comparative information

As a result of the change in functional currency effective January 1, 2026, described in point a) above, the balances as of December 31, 2025 and for the three-month and nine-month periods ended September 30, 2025 presented in these Condensed Interim Consolidated Financial Statements for comparative purposes have been derived from the Financial Statements as of such dates expressed in units of the functional currency as of December 31, 2025 according to IAS 29 "Financial Reporting in Hyperinflationary Economies". Certain reclassifications have been made to the figures corresponding to the financial statements presented in a comparative manner in order to maintain consistency in the presentation with the figures of the current period.

c) Storage of accounting records and corporate documentation

In accordance with General Resolution No. 629/14 of the *Comisión Nacional de Valores* we inform that the back-up documentation of accounting transactions and the Company's management and the business and corporate books of CGC are filed at the offices located at Bonpland 1745, City of Buenos Aires, and in the warehouses of the supplier "Iron Mountain Argentina S.A." with registered office at Amancio Alcorta 2482, City of Buenos Aires.

d) Approval of the Board of Directors

These unaudited condensed interim consolidated financial statements have been translated into English from Spanish for the sole purpose of international presentations and were approved for issuance by the Board of Directors on November 13, 2026.

The condensed interim consolidated financial statements used by Compañía General de Combustibles S.A. for statutory, legal and regulatory purposes in Argentina are those presented in Spanish and filed with the National Securities Commission for Argentina (Comisión Nacional de Valores, CNV), which were approved for issuance by the Board of Directors on November 13, 2026. These financial statements are presented in U.S. dollars, the Company's functional currency.

2.2. Accounting policies

The accounting policies adopted for the Condensed Interim Consolidated Financial Statements are consistent with those used in the Financial Statements for the year ended December 31, 2025. See the hedge accounting policy in Note 2.2.4 to these Condensed Interim Consolidated Financial Statements.

2.2.1. New mandatory rules, amendments and interpretations for fiscal years started as from January 1, 2026

The Group has applied the following standards and/or amendments for the first time since January 1, 2026:

- IFRS 9 and IFRS 7 "Financial Instruments and Disclosures": in May 2024, the application guide for IFRS 9 was amended and disclosure requirements will be incorporated into IFRS 7. It incorporates the option of considering the cancellation of a financial liability before its settlement in the event of the issuance of electronic payment instructions that meet certain requirements and incorporates disclosure requirements for investments in equity instruments designated at fair value through other comprehensive income and instruments at amortized cost or fair value through other comprehensive income. The amendments are applicable for periods beginning on or after January 1, 2026, allowing early adoption. The application of the standard did not have an impact on the results of operations or the financial position of the Group.

2.2.2. New standards, amendments and interpretations not effective and not early adopted by the Group

In accordance with CNV General Resolution No. 972/23, the early application of the IFRS Accounting Standards and/or their modifications is not admitted, unless it is specifically admitted at the time of their adoption.

- IFRS 18 "Presentation and Disclosures in Financial Statements": issued in April 2024. It establishes new requirements for presentation and disclosure of information with the aim of ensuring that Financial Statements provide relevant information that faithfully represents the situation of an entity. The standard does not affect the recognition or measurement of items in the financial statements; however, it introduces new requirements to increase comparability between entities. It highlights: (i) the classification of Income and Expenses into operating, investing and financing categories; (ii) the incorporation of required subtotals; and (iii) the disclosure of performance measures defined by management. The standard is applicable retroactively to annual financial years and interim periods beginning on or after January 1, 2027, allowing early adoption. The Group is currently analyzing the impact that such amendment will have on its financial statements.

- IFRS 19 "Subsidiaries without Public Accountability: Disclosures": issued in April 2024. It establishes the option to disclose reduced information requirements for entities without Public Accountability that are subsidiaries of an entity that prepares Consolidated Financial Statements that are available for public use and comply with IFRS Accounting Standards. The standard is applicable for periods beginning on or after January 1, 2027, allowing early adoption. The application of the standard will not have an impact on the results of operations or the financial position of the Group.

- IAS 21 "Conversion to a Hyperinflationary Presentation Currency": issued in November 2025. It establishes that when an entity translates amounts from a functional currency corresponding to a non-hyperinflationary economy into a presentation currency of a hyperinflationary economy, including comparative amounts, it must use the exchange rate in effect at the closing date. The amendments are applicable to periods beginning on or after January 1, 2027. The Group is currently analyzing the impact that such amendment will have on its financial statements.

Management evaluated the relevance of other new standards, amendments and interpretations not yet effective and concluded that they are not relevant to the Group.

2.2.3 Estimates

The preparation of the Condensed Interim Consolidated Financial Statements requires the Company's management to make estimates and assessments regarding the future, use critical judgments and make assumptions affecting the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. In the preparation of these Interim Consolidated Financial Statements, the critical judgments made by the management upon applying the Company's accounting policies and the sources of information used for the respective estimates are the same as those applied in the Financial Statements for the year ended December 31, 2025.

These estimates and judgments are continuously evaluated and are based on past experience and other factors that are reasonable under existing circumstances. Actual results could differ from the estimates and assessments made as of the date of preparation of these Condensed Interim Financial Statements.

2.2.4 Derivative financial instruments and hedge accounting

Derivative financial instruments are initially and subsequently recognized at fair value. When a derivative financial instrument is designated as a cash flow hedging instrument and the hedging relationship meets the requirements set forth in IFRS 9, the effective portion of changes in the fair value of the hedging instrument is recognized in other comprehensive income and accumulated in the cash flow hedge reserve within equity. The ineffective portion of the hedge is recognized immediately in profit or loss.

Amounts accumulated in the cash flow hedge reserve are reclassified to profit or loss in the periods in which the hedged item affects profit or loss. When a hedging relationship ceases to meet the requirements for the application of hedge accounting, its subsequent accounting treatment is determined in accordance with the requirements of IFRS 9.

Note 3. Subsidiaries consolidation

CGC's Financial Statements as of September 30, 2026, were consolidated with the Financial Statements of the following companies:

Company	Country	Currency	Number of shares (direct and indirect interest)	% of interest (direct and indirect)	Number of voting rights
Compañía General de Combustibles Internacional Corp. S.A.	Panamá	US Dollar	100	100%	100
CGC Energy Ltd.	Cayman Islands	US Dollar	100	100%	100
ENG Servicios S.A.U.	Argentina	Argentine Pesos	100	100%	100
Energy Transport Latam S.A.U.	Argentina	Argentine Pesos	100	100%	100

Note 4. Financial risk management

The Board of Directors of the Group agrees on the policies for the management and administration of its risks, which have been consistently applied during the periods under analysis presented in these Financial Statements.

The Company's activities are exposed to various financial risks including liquidity risk, credit risk, commodity price risk and foreign currency exposure. These Condensed Financial Statements do not include all risk management disclosures required for the annual Financial Statements and therefore must be read in conjunction with the company's annual Financial Statements as of December 31, 2025.

Commodity price risk

On September 23, 2026, the Company entered into a "three-way collar" hedging strategy on the international "Oil-Brent-ICE" price, consisting of the purchase of a put option with a strike price of USD 77.00 per barrel, the sale of a call option with a strike price of USD 80.20 per barrel, and the purchase of a second call option with a strike price of USD 90.00 per barrel. The hedge was entered into in respect of the cash flows from highly probable oil sales for the period from January through June 2027, for a volume of 546,000 barrels, for which a premium of USD 759 thousand was paid.

As of September 30, 2026, the derivative was recognized at its fair value of USD 758,940, corresponding to the premium paid; no subsequent changes in fair value were recognized during the period. Where applicable, the effective portion of such changes will be recognized in other comprehensive income and accumulated in the cash flow hedge reserve until the hedged sales affect profit or loss.

Subsequent to the end of the period, on October 8, 2026, the Company entered into an additional hedging instrument, expanding its cash flow hedging strategy through a new "three-way collar" derivative instrument on the Brent price, consisting of the purchase of a put option with a strike price of USD 81.00 per barrel, the sale of a call option with a strike price of USD 81.00 per barrel and the purchase of a second call option with a strike price of USD 89.00 per barrel. The hedge

was designated on highly probable sales of oil for a volume of 555,000 barrels, with a premium of USD 72 thousand having been paid.

These financial instruments entered on September 23, 2026 and October 8, 2026 required collateral of USD 5.35 million and USD 4.44 million, respectively, which may be provided by the Company and/or any related company within the economic group.

Note 5. Fair value measurement

IFRS 13 requires, for financial instruments valued at fair value, a fair value disclosure per level. The Company classifies fair value measurements of financial instruments using a fair value hierarchy, which reflects the relevance of the variables used to perform such measurements. The fair value hierarchy has the following levels:

- **Level 1**: quoted (unadjusted) prices in active markets for identical assets or liabilities.
- **Level 2**: data other than the quoted prices included in Level 1 observable for assets or liabilities. whether directly (i.e. prices) or indirectly (i.e. derived from prices).
- **Level 3**: data on assets or liabilities not based on information observable in the market (i.e. unobservable information).

The following table shows financial assets measured at their fair value as of September 30, 2026, and December 31, 2025. The Group has no financial liabilities measured at fair value.

As of 09.30.2026	Level 1	Level 2	Level 3	Total (Unaudited)
Assets				
Cash and cash equivalents				
Mutual funds	173,263,454	-	-	173,263,454
Government securities	78,974,169	-	-	78,974,169
Investments at fair value				
Listed shares	386,677	-	-	386,677
Other receivables				
Hedging instruments	-	758,940	-	758,940
Total current assets	**252,624,300**	**758,940**		**- 253,383,240**

As of 12.31.2025	Level 1	Level 2	Level 3	Total
Assets				
Cash and cash equivalents				
Mutual funds	97,216,704	-	-	97,216,704
Investments at fair value				
Listed shares	630,451	-	-	630,451
Total current assets	**97,847,155**	**-**	**-**	**97,847,155**

As of September 30, 2026, and December 31, 2025, there were no transfers between levels during the period nor changes in the way to determine the fair value of financial assets and liabilities, nor have there been any changes in the determination of the fair value of financial assets and liabilities.

Note 6. Operating segments

IFRS 8 "Operating Segments" requires entities to disclose financial and descriptive information on those operating segments or groups of segments classified as reportable that meet certain criteria. Operating segments are components of an entity for which separate financial information is available and are regularly evaluated by the Chief Operating Decision Maker (CODM) to decide how to allocate resources or assess asset performance. Operating segments are reported consistently with internal reports to the CODM or, if applicable, to the Board of Directors.

The Group has two operating and reportable segments which are organized on the basis of similar economic characteristics, nature of the products offered, production processes, type and classes of customers and distribution methods, as follows:

- **"Upstream"**: includes the results of exploration and production of oil, gas and Liquefied Petroleum Gas (LPG);
- **"Midstream"**: includes the results of permanent investments in the following gas transportation companies: Transportadora de Gas del Norte S.A., Transportadora de Gas del Mercosur S.A., y Gasoducto GasAndes (Argentina) S.A. y Gasoducto GasAndes S.A (Chile).

Central Structure includes expenses common to the segments reported such as administrative expenses, taxes on financial transactions, interest on financial liabilities and income tax incurred by the Group in the ordinary course of business which are not allocated to the reported segments.

The CODM uses the Segment adjusted EBITDA to decide how to allocate resources and monitor the performance of segments.

Adjusted EBITDA means the operating result of consolidated segments excluding depreciation, amortization and impairment loss of Property, plant and equipment and leasehold interests, income (losses) for the return of exploratory areas and unsuccessful exploratory investments, tax on bank debits and credits and restructuring expenses. The Adjusted EBITDA with dividends collected includes the collection of dividends on investments in associates and joint ventures. Total adjusted EBITDA with dividends collected means the sum of the adjusted EBITDA of all segments plus dividends collected.

The following table contains selected information for each of the business segments identified by the Group's Management:

	As of 09.30.2026			
	Upstream	Midstream	Central Structure	Total (Unaudited)
Revenues	775,075,335	-	-	**775,075,335**

Assessment of the recoverable amount of Property, plant and equipment

At the end of each period, the Company reviews the relation between the recoverable amount and the carrying amount of its assets, where there are indications of impairment. During the nine-month period ended September 30, 2026, and 2025, the Group has not identified signs of additional impairment to non-financial assets.

As of September 30, 2026, and December 31, 2025, the impairment balance of non-financial assets is composed of the following:

CGUs	09.30.2026	12.31.2025
El Cerrito	152,710,529	152,710,529
Campo Boleadoras	26,408,636	26,408,636
Campo Indio	70,426,553	70,426,553
María Inés	13,195,825	13,195,825
Austral Basin Total	**262,741,543**	**262,741,543**

The assessment of the recoverable value of Property, plant and equipment was reported in detail in Note 5.c) to the Financial Statements as of December 31, 2025.

Note 8. Investments in associates and joint ventures

8.a) The following table shows the investments in associates and joint ventures as of September 30, 2026 and December 31, 2025:

Company	09.30.2026 (Unaudited)	12.31.2025
Joint Ventures		
Gasinvest S.A.	248,425,463	198,981,817
Gasoducto GasAndes (Argentina) S.A.	11,909,340	12,772,003
Gasoducto GasAndes S.A. (Chile)	15,444,165	16,162,245
Transportadora de Gas del Norte S.A.	499,443	399,315
Andes Operaciones y Servicios S.A. (Chile)	1,315,172	1,243,584
Associates		
Transportadora de Gas del Mercosur S.A.	659,065	866,509
Other associates		
Termap S.A.	2,562,763	2,671,966
Other associates (1)	36,220	-
Total investments	**280,851,631**	**233,097,439**

(1) Other associates include JANUS LNG ARGENTINA S.A.U. and JANUS LNG CHILE Spa 100% subsidiaries of CGC that are in a pre-operational stage.

8.b) The following table shows the changes in investments as of September 30, 2026, and 2025:

	09.30.2026	09.30.2025
	(Unaudited)	
Balance at the beginning of the year	**233,097,439**	**239,206,353**
Currency translation differences	36,176,297	1,257,250
Capital contributions to associates	36,220	-
Share of profit	43,996,395	48,780,892
Dividends (1)	(32,454,720)	(53,599,456)
Balance at the end of the period	**280,851,631**	**235,645,039**

(1) Dividends declared as of September 30, 2026, and 2025 have been fully collected in the period.

8.c) The following table shows the results of investments in associates and joint ventures as of September 30, 2026 and 2025:

Company	09.30.2026	09.30.2025
	(Unaudited)	
Joint Ventures		
Gasinvest S.A.	27,140,717	33,317,735
Gasoducto GasAndes (Argentina) S.A.	11,879,510	8,882,738
Gasoducto GasAndes S.A. (Chile)	5,154,421	6,486,003
Transportadora de Gas del Norte S.A.	55,129	67,729
Andes Operaciones y Servicios S.A. (Chile)	71,588	91,432
Associates		
Transportadora de Gas del Mercosur S.A.	(304,970)	(64,745)
Total results in investments	**43,996,395**	**48,780,892**

Note 9. Other receivables

The composition of other receivables is as follows:

	09.30.2026 (Unaudited)	12.31.2025
Non-current		
Related parties (Note 27.a)	7,875,985	6,505,036
Receivables from acquisition of areas (Note 1.1 b) and c)	5,357,756	-
Sundry	227,729	104,464
Allowance for expected credit losses	(5,524,526)	(5,490,354)
Total	**7,936,944**	**1,119,146**
Current		
Receivables from incentives	2,945,232	1,692,616
Hedging instruments (2)	758,940	-
Related parties (Note 27.a)	1,636,404	1,932,024
Tax credits	15,821,576	26,229,161
Advances to suppliers	5,436,004	6,029,168
Deposits in guarantee (1)	6,202,019	6,087,159
Prepaid expenses	2,368,726	1,921,608
Receivables from acquisition of areas (Note 1.1 b) and c)	3,768,878	5,134,440
Partner's Joint Operations	260,720	545,704
Prepaid mining fees	1,314,682	-
Sundry	4,318,386	4,097,845
Total	**44,831,567**	**53,669,725**

(1) Guarantee deposited by Compañía General de Combustibles Internacional Corp. S.A. for the import of the Company's gas compression plant.
(2) As of September 30, 2026, corresponds to the premium paid for the crude oil price hedge entered into on September 23, 2026, measured at fair value. (See note 4).

Changes in the Allowance for expected credit losses for other receivables are as follows:

	09.30.2026	09.30.2025 (Unaudited)
Non-current		
Balance at the beginning of the year	**5,490,354**	**5,313,871**
Hyperinflation effect	-	(957,031)
Currency translation difference	34,172	-
Increases (1)	-	1,400,569
Balance at the end of the period	**5,524,526**	**5,757,409**

(1) Charged to Financial Results in 2025.

Due to the short-term nature of other current receivables, it is considered that their book value does not differ from their fair value. For the other non-current receivables, the fair values do not differ significantly from their book values.

Note 10. Inventories

The composition of inventories is as follows:

	09.30.2026 (Unaudited)	12.31.2025
Crude oil and petroleum products	21,320,792	10,624,300
Materials and spare parts	125,947,050	132,962,032
Less: Provision for obsolescence	(50,190,860)	(41,449,288)
Total	**97,076,982**	**102,137,044**

The movements in the provision for obsolescence are as follows:

	09.30.2026	09.30.2025 (Unaudited)
Balance at the beginning of the year	41,449,288	37,876,518
Increases (decreases) (1)	11,732,533	(150,685)
Applications	(2,864,932)	(2,072,498)
Currency translation differences	(126,029)	-
Balance at the end of the period	**50,190,860**	**35,653,335**

(1) Charged to other operating income and (expenses), net.

Note 11. Trade receivables

The composition of trade receivables is as follows:

	09.30.2026 (Unaudited)	12.31.2025
Non-current		
Ordinary (1)	132,665	138,318
Less: Allowance for expected credit losses	(132,665)	(138,318)
Total	**-**	**-**
Current		
Ordinary	143,548,142	100,086,143
Less: Allowance for expected credit losses	(2,601,050)	(2,384,557)
Total	**140,947,092**	**97,701,586**

(1) As of September 30, 2026, and December 31, 2025, corresponds to the balances pending collection by Decree No. 1053/2018.

Changes in the Allowance for expected credit losses are as follows:

	09.30.2026	09.30.2025 (Unaudited)
Balance at the beginning of the year	**2,522,875**	**1,751,654**
Hyperinflation effect	-	(315,475)
Increases (1)	338,255	459,085
Currency translation differences	(127,415)	-
Balance at the end of the period	**2,733,715**	**1,895,264**

(1) Charged USD 338,255 and USD 422,054 to financial assets impairment in 2026 and 2025 respectively, and USD 37,031 to Financial Results in 2025.

Trade receivables fully comply with their contractual terms and their fair value does not significantly differ from their carrying amount.

Note 12. Investments at amortized cost and fair value

12.a) The composition of investments at amortized cost is as follows:

	09.30.2026 (Unaudited)	12.31.2025
Current		
Fixed-term placements (1)	12,759,818	11,746,889
Total	**12,759,818**	**11,746,889**

(1) As of September 30, 2026 and December 31, 2025, it corresponds to a fixed term deposited by CGC Energy Ltd in Eurobanco Bank Ltd. which is with restricted availability and as collateral for CGC's financial debt with Eurobanco Bank Ltd.

Note 14. Capital stock

As of September 30, 2026 and December 31, 2025, the share capital amounted to USD 68,564,584, and is fully subscribed, paid-in, issued and registered. It is comprised of shares with a par value of $ 1 peso, represented by 74,102,019,856 ordinary shares, consisting of 51,871,413,862 Class A shares and 22,230,605,994 Class B shares, both with five votes per share, and 25,659,449,257 non-voting preferred shares.

The Company is controlled by Latin Exploration S.L.U., which holds 77.72% of the share capital and 70% of the voting rights as of the dates. The remaining percentage of share capital is held by non-controlling shareholders; therefore, the shareholding structure was composed as follows:

Stockholder	Ordinary Shares	Preferred Shares (*)	% Of Shareholding
Latin Exploration S.L.U.	51,871,413,862 class "A"	25,659,449,257	77.72%
Sociedad Comercial del Plata S.A.	22,230,605,994 class "B"	-	22.28%
Total	**74,102,019,856**	**25,659,449,257**	**100.00%**

(*) Holders of preferred shares shall be entitled to an annual non-cumulative preferred dividend equal to 50% of the dividends voluntarily declared by the ordinary general meeting of shareholders, which shall have priority in payment over dividends corresponding to ordinary shares, provided that no dividend or distribution in cash or other property may be paid, declared, or allocated for payment by or with respect to ordinary shares unless, together therewith, the dividend is paid, declared, and allocated to the preferred shares. The dividend on preferred shares shall be payable to each preferred share pro rata. Additionally, in the event of liquidation of the Company, preferred shares shall have priority over ordinary shares, and holders of preferred shares shall be entitled to receive, from the proceeds of the liquidation, an amount equal to the par value of the preferred shares, prior to payment of the liquidating dividend on the ordinary shares.

Note 15. Other provisions

	09.30.2026 (Unaudited)	12.31.2025
Non-current		
Gas imbalance	936	1,410
Well abandonment and environmental remediation	192,287,125	219,853,408
Other	440,790	440,790
Total	**192,728,851**	**220,295,608**
Current		
Gas imbalance	576	630
Total	**576**	**630**

The changes in other provisions are shown below:

	Balance at the beginning of the year	Translation effect	Increases	Decreases	Balance at the end of the period (Unaudited)
Non-current					
Gas imbalance (1)	1,410	(38)	-	(436)	936
Well abandonment and environmental remediation provision (2)	219,853,408	(4,892,279)	16,848,939	(39,522,943)	192,287,125
Other	440,790	-	-	-	440,790
Total	**220,295,608**	**(4,892,317)**	**16,848,939**	**(39,523,379)**	**192,728,851**
Current					
Gas imbalance (1)	630	(20)	-	(34)	576
Total	**630**	**(20)**	**-**	**(34)**	**576**

(1) The decreases correspond to USD (470) to gas returns and were charged to cost of sales.
(2) The increases correspond to USD 16,848,939 in present value charged to other financial results, and the decreases correspond to USD (36,999,174) due to transfer of assets of areas and USD (2,523,769) utilization of the provision.

Note 16. Other liabilities

	09.30.2026 (Unaudited)	12.31.2025
Non-current		
Deferred income (1)	32,500,000	40,000,000

Total	**247,264,503**	**580,243,959**

The change in financial indebtedness as of September 30, 2026 and 2025 is shown below:

	09.30.2026	09.30.2025
	(Unaudited)	
Initial balance	**1,434,738,902**	**1,214,177,326**
Accrued interest	75,086,704	36,062,141
Exchange differences, net of hyperinflation effect	413,743	107,404,340
Loans received	415,961,457	134,244,522
Payments of capital	(488,313,245)	(186,400,678)
Payments of interest	(55,402,923)	(35,634,882)
Final balance	**1,382,484,638**	**1,269,852,769**

The maturities of financial indebtedness as of September 30, 2026, and as of December 31, 2025, are as follows:

	09.30.2026	12.31.2025
	(Unaudited)	
Less than 1 year	247,264,503	580,243,959
From 1 to 2 years	266,676,295	250,528,260
From 2 to 3 years	319,880,351	236,159,120
More than 3 years	548,663,489	367,807,563
Total	**1,382,484,638**	**1,434,738,902**

See the details of the financial indebtedness, guarantees, and restrictions in Notes 21 and 27 to the Financial Statements as of December 31, 2025.

The carrying amount of financial debt is close to its fair value.

As of September 30, 2026, the Company is in compliance with the covenants established in its debt contracts.

During the 2026 financial year, the Company recorded various movements related to its financial debt, total cancellation of the Class 33, 34 and 35 Negotiable Obligations; and the restructuring of loans Sindicated, Eurobanco Bank Ltd, Banco Macro and Banco Provincia, which implied the extension of terms and adjustments in the applicable rates. Likewise, new financing operations were implemented with Banco de Galicia. (See the details in Note 21 to the Financial Statements as of December 31, 2025).

Class 38 Negotiable Obligations

On May 11, 2026, the Company issued an additional USD 200,000,000 (102.65% issue price) in the local and international markets under the Class 38 Negotiable Obligations series, subscribed, paid up, and payable in US dollars. These additional obligations have the same terms and conditions as the negotiable obligations issued on November 28, 2025, with a principal maturity of 60 months (November 28, 2030) and accruing a fixed annual interest rate of 11.875% with semi-annual interest payments. See Note 21.m) to the Financial Statements as of December 31, 2025 for details of the Class 38 Negotiable Obligations.

Class 41 Negotiable Obligations

On September 7, 2026, the Company issued Class 41 Negotiable Obligations for a nominal value of USD 83,573,632, denominated and payable in U.S. dollars in Argentina, at a fixed nominal annual interest rate of 8.00%, maturing on September 7, 2029. Interest is payable semi-annually and the principal will be amortized in a single installment on the maturity date.

Of the nominal value issued, USD 79,236,114 were paid up in U.S. dollars in Argentina and USD 4,337,518 were paid up in kind through the delivery of Class 36 and Class 37 Negotiable Obligations, at an exchange ratio of USD 1 of nominal value of Class 41 Negotiable Obligations for each USD 1 of nominal value of the eligible negotiable obligations delivered. See details of the Class 36 Negotiable Obligations in Note 21.j) and Class 37 in Note 21.l) to the Financial Statements as of December 31, 2025.

Note 19. Trade payables

The details of trade payables are as follows:

	09.30.2026	12.31.2025
	(Unaudited)	
Current		
Ordinary suppliers	49,423,389	55,517,482
Ordinary suppliers of joint ventures	667,714	30,116,412
Related parties (Note 27.a)	2,950,363	1,814,487
Invoices to be received	49,263,764	39,442,504
Total	**102,305,230**	**126,890,885**

c) Compensation of key management personnel of the Company's management and the members of the Board of Directors for the nine-month period ended September 30, 2026, and 2025 amounted to USD 9,720,422 and USD 10,885,563 respectively.

Note 28. Operational Efficiency Plan

In 2025, the Company implemented a comprehensive operational efficiency plan, framed within its long-term sustainability and growth strategy, with the goal of optimizing its cost structure and improving resource allocation.

As part of this plan, it was decided to internalize certain strategic services through a subsidiary, which resulted in the acquisition of equipment and operational infrastructure. Additionally, a review of internal processes and functions was conducted, which involved the layoff of its own personnel and the early termination of certain service provision contracts with external contractors.

In this context, as of December 31, 2025, severance pay and contractual compensation expenses totaling USD 47,933,474 were recognized, expressed in the period-end currency, and recorded in the income statement under the heading "Other operating income and (expenses), net," under the line "Restructuring expenses". The efficiency plan is currently under development, so additional expenditures may be generated associated with later stages of implementation. As of December 31, 2025, within the framework of the operational efficiency plan, a provision for restructuring expenses was recognized under the caption "Other liabilities - Current" in the amount of USD 14,136,377 corresponding to personnel termination costs of external contractors to be executed in fiscal year 2026.

During the nine-month period, the provision was partially consumed. As of September 30, 2026, the provision for restructuring expenses recognized under the heading of other current liabilities amounts to USD 2,650,976.

The Company estimates that this process will allow it to consolidate a more agile, efficient structure aligned with its strategic objectives, with a positive impact on future operating profitability.

Note 29. Subsequent Events

As of the date of issuance of these Condensed Interim Consolidated Financial Statements, except for the hedging instrument entered into on October 8, 2026 (see Note 4), there have been no other material subsequent events whose effect on the Group's financial position, results of operations, or disclosure in the notes as of September 30, 2026, should have been considered therein under IFRS.

Report on review of interim financial information

To the Shareholders, President and Directors of

Compañía General de Combustibles S.A.

Introduction

We have reviewed the condensed interim consolidated financial statements of Compañía General de Combustibles S.A. and its subsidiaries (the 'Group') which comprise the condensed interim consolidated statement of financial position as at September 30, 2026, and the condensed interim consolidated statements of comprehensive income for the three-month and nine-month periods then ended, and condensed interim consolidated statements of changes in equity and cash flows for the nine-month period then ended and selected explanatory notes.

Responsibilities of the Board of Directors

The board of Directors of Compañía General de Combustibles S.A. is responsible for the preparation and presentation of this condensed interim consolidated financial information in accordance with IFRS Accounting Standards and is therefore responsible for the preparation and presentation of the condensed interim financial statements mentioned in the first paragraph, in accordance with International Accounting Standard 34 (IAS 34).

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, 'Review of interim financial information performed by the independent auditor of the entity'. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim consolidated financial information is not prepared, in all material respects, in accordance with IAS 34.

Autonomous City of Buenos Aires, November 13, 2026

PRICE WATERHOUSE & CO. S.R.L.

Supervisory Committee's Report

To the shareholders of Compañía General de Combustibles S.A.

In our capacity as members of the Supervisory Committee of Compañía General de Combustibles S.A., according to the provisions of General Companies Law No. 19,550 ("Law No. 19,550) and the regulatory provisions on accounting information of the *Comisión Nacional de Valores* (Securities Commission) and the Buenos Aires Stock Exchange. We have reviewed with the scope described in section II below the documents specified in section I below. The preparation and issuance of such documents are the responsibility of the Company's Board of Directors in the exercise of its exclusive functions. Our responsibility is to report on such documents based on the work performed with the scope mentioned in section II.

I. Documents reviewed

a) Condensed Interim Consolidated Statement of Financial Position as of September 30, 2026
b) Condensed Interim Consolidated Statement of Comprehensive Income as of September 30, 2026
c) Condensed Interim Consolidated Statement of Changes in Equity as of September 30, 2026
d) Condensed Interim Consolidated Statement of Cash Flows as of September 30, 2026
e) Notes to the Condensed Interim Consolidated Financial Statements as of September 30, 2026
f) Overview to the condensed interim consolidated Financial Statements as of September 30, 2026, as required by paragraph b.2), chapter I, title IV of the rules of the Comisión Nacional de Valores (Securities Commission or "CNV") (n.t. 2013)

II. Scope of the review

Our review was carried out in accordance with the statutory audit standards in force in the Republic of Argentina. Those standards require the review of Financial Statements to be made according to the audit standards in force for the review of Condensed Interim Financial Statements set forth by Technical Resolution No. 33 of the Argentine Federation of Professional Councils in Economic Sciences and therefore it does not include all necessary procedures to express an opinion on the Company's Financial Position, Comprehensive Results, Changes in Shareholders' Equity and Cash Flows.

To perform our professional work on the documents detailed in chapter I, we have taken into account the limited review made by the external auditors, Price Waterhouse & Co. S.R.L. who issued their report on November 13, 2026. Our task included the review of the work, the nature, scope and timing of the procedures applied, and of the results of the review made by such professionals.

The above referred limited review standards consist mainly in applying analytical procedures in respect of the amounts included in the Financial Statements and making global checks and inquiries to the Company's employees responsible for the preparation of the information included in the Financial Statements. The scope under such rules is substantially reduced as compared to the application of all auditing procedures necessary to be able to issue a professional opinion on the Financial Statements considered as a whole. Therefore, we express no such opinion.

In connection with the overview to the Consolidated Condensed Interim Financial Statements required by section 1, paragraph b.2), chapter I, title IV of the CNV rules (n.t. 2013), we have verified that these documents contain the information required by section 1, paragraph b.2), chapter I, title IV of the Comisión Nacional de Valores rules (n.t. 2013), being all statements on the economic environment in which the Company has operated, Business management and future events included in such documents which are the exclusive responsibility of the Company's Board of Directors.

In addition, we have verified in respect of numerical accounting data, as regards those matters that are within our competence that such data have been derived from the Company's accounting records or other relevant documentation. Our review did not include the evaluation of management selling or production criteria, which are the exclusive responsibility of the Board of Directors.

III. Statement of the supervisory committee

On the basis of the work performed as stated in chapter II of this report which did not include the application of all procedures necessary to allow us to express an opinion on the reasonability of the Financial Statements subject to this review, we consider that we are in a position to inform that:

a) The significant events and circumstances of which we have become aware and that are not affected by uncertainties are considered in these financial statements; and

b) We have not become aware of any significant amendment that should be made to the Consolidated Condensed Interim Financial Statements of Compañía General de Combustibles S.A. identified in paragraphs a) to e) of chapter I of this report for them to be presented according to International Accounting Standard 34; and in respect of the overview to the condensed interim financial statements required by section 1, paragraph b.2), chapter I, title IV of the CNV rules (n.t. 2013) mentioned in paragraph f) of chapter I, as regards those matters that are within our competence, we have no remarks to make.

In compliance with the legal provisions in force, we inform that:

a) The accompanying financial statements comply with the provisions of Law No. 19,550 are recorded in the Inventory and Balance Sheets Book and arise from the Company's accounting records kept in their formal aspects in accordance with current legal provisions.

b) In exercise of our legality control functions, we have applied during the period the procedures described in section 294 of Law No. 19,550 that we have considered necessary according to the circumstances not having any remarks to make thereon.

City of Buenos Aires, November 13, 2026
